

Sindh TEVTA introduces modern Diploma of Associate Engineering (DAE) across Sindh for producing highly skilled workforce in wake of 4th Industrial Revolution

July 24, 2020: In order to provide high quality workforce to local & CPEC industry and prepare youth of Sindh for overseas job markets, the Managing Director Sindh TEVTA, Agha Sohail commenced implementation of modern Diploma of Associate Engineering (DAE) programs across Sindh in all

STEVTA institutes from academic year 2020 onwards. The DAE curricula are revised / developed keeping in view the emerging and changing needs of 4th industrial revolution (IR4) with the support of National Vocational & Technical Training Commission, provincial TEVTAs and TVET Sector Support Program and technical inputs from Chamber of Commerce & Industries and Employers Federation of Pakistan. The implementation of new programs will provide greater chances of employability to the youth of Sindh and improve socio-economic condition of the province. Managing Director Sindh TEVTA also kicked off

development of Teaching & Learning Material in line with the new curricula in collaboration with key stakeholders keeping in view the industrial requirement.
