# QUAID-E-AZAM MUHAMMAD ALI JINNAH MESSAGE ON REORIENTATION OF EDUCATION

(An Extract from message to All Pakistan Educational Conference, Karachi, November 27, 1947)

## Vision of the Quaid-i-Azam Muhammad Ali Jinnah

*There is immediate and urgent need for training our people in the scientific and technical education in order to build up future economic life... But do not forget that we have to compete with the world, which is moving very fast in this direction. Also I must emphasize that greater attention should be paid to technical and vocational education.*

## From Special Assistant to Chief Minister Sindh/Chairperson, Sindh TEVTA

It is with profound pride and a forward-looking vision that I extend my sincere greetings to all prospective students and esteemed stakeholders of our institution. The initiation of the Technical and Vocational Education and Training (TVET) Program marks a significant milestone in our unwavering commitment to fostering innovation, academic excellence, and a brighter future for Pakistan.

In an era defined by rapid technological advancement and global industrial transformation, the role of technologists and skilled professionals has become increasingly vital. These individuals, with their unique integration of theoretical knowledge and practical skills, are at the forefront of driving economic development, industrial efficiency, and technological innovation. As Pakistan enters a new phase of progress, the need to embed advanced technology across all sectors has become not only essential but urgent.

In response to this imperative, the Sindh Technical Education and Vocational Training Authority (STEVTA) is strategically mobilizing its resources to establish institutions that meet comprehensive academic and technical standards. These institutions are designed to offer a conducive environment for intellectual and practical growth, equipping students with the skills and competencies necessary to compete effectively in a dynamic global market.

Our skill training and education programs, including Certificate Courses, Diplomas, and Bachelor's Degree Programs, are meticulously developed to align with international benchmarks while addressing the unique demands of Pakistan's industry. These programs are more than academic offerings as they represent transformative journeys aimed at empowering students to become innovators, leaders, and key contributors to national development.

I encourage all motivated and aspiring youth to embrace this opportunity to unlock their full potential and actively participate in shaping Pakistan's future. Together, we can pave the way for a nation recognized globally for its technological excellence, skilled workforce, and sustainable growth.

**JUNAID BULAND**

Special Assistant to Chief Minister Sindh /  
Chairperson STEVTA

**Tarique Manzoor (PAS)**  
**Managing Director**

In the current socio-economic context, characterized by high unemployment and pervasive poverty driven by a mismatch between available skills and labor market demands, Technical and Vocational Education and Training (TVET) emerges as a critical instrument for economic resilience and youth empowerment. Providing the youth with market-relevant technical skills is not merely a desirable objective but a fundamental prerequisite for achieving sustainable national development.

Despite being a labour surplus economy, Pakistan faces a growing paradox in which rising youth unemployment exists alongside a persistent shortage of skilled and technically proficient professionals, especially in middle-management roles. In response, the Sindh Technical Education and Vocational Training Authority (STE VTA) is actively addressing this gap through the adoption of global best practices, the implementation of demand-driven curricula, the strengthening of institutional governance, and the establishment of robust linkages with industry.

Although TVET is globally acknowledged as a powerful mechanism for poverty reduction and inclusive growth, it continues to be perceived as a secondary alternative to conventional academic pathways. This perception must be reshaped. Enhancing the recognition and societal value of TVET is imperative for cultivating a workforce equipped for the demands of a rapidly evolving economy.

STE VTA remains steadfast in its commitment to repositioning TVET as a preferred career choice by ensuring high-quality training, upgrading institutional infrastructure, promoting transparent governance, and actively engaging youth. Through these efforts, STE VTA aims to develop a future-ready skilled workforce that contributes meaningfully to Pakistan's socio-economic development.

## 1. INTRODUCTION

### 1.1 BRIEF HISTORY

Globalization generates new demands, structures, and systems requiring new skills and knowledge. In today's global economy driven by knowledge, the foremost wealth of a firm is its human capital. Therefore, the economic development of a country strongly depends on the level of human development, which in turn depends on the level of technically trained labour. Skilled labour results in improved productivity for Industry. A country with a wide-ranging Industrial base generates greater employment opportunities and reduces unemployment and poverty. For optimum performance by the industry, a productive workforce is needed to meet economic and social objectives.

Pakistan, with a labour surplus economy, on one side has rapidly increasing unemployed youth while on the other end, its public and private sector employers desperately look for a technically educated and trained workforce. The shortage of skilled labour is due to a mismatch between academic programs and market-oriented skills and training.

In response to the evolving demands of both domestic and international labour markets, and in alignment with the reorganization of Technical and Vocational Education and Training (TVET) institutions undertaken by other provinces, the Sindh Technical Education and Vocational Training Authority (STE V T A) was established under the STE V T A Ordinance, 2007 (Ordinance XVII of 2007). After the approval of the Sindh Cabinet in its meeting held on February 28, 2009, the administrative control of all TVET Institutions have been entrusted to STE V T A and subsequently in 2009, the Sindh Assembly passed the STE V T A Bill, 2009 on March 29, 2010, and enacted as The Sindh Technical Education & Vocational Training Authority Act, 2009 on April 20, 2010. To extend complete autonomy for reorganization and effective management, the policy-making task has been entrusted to the STE V T A Board of Governors (BoG).

### 1.2 PURPOSE

# **DIPLOMA IN COMMERCE (D.COM) AND BUSINESS ADMINISTRATION (DBA)**

**15. SCOPE OF DIPLOMA IN COMMERCE (D.COM) PROGRAM**

The economic development mechanism of a country is based upon three fields, i.e. commerce, industry and agriculture. The complete success in these fields can be achieved with the help of efficient, educated and properly trained Business/office managers. The field of business/office management and commerce requires the services of administrators, managers, accountants, secretaries, Junior Executives, and sales managers / Executives. There is a dearth of these qualified and trained professionals in our society / corporate sector. The Diploma in Commerce (D.Com) is equivalent to Intermediate (Commerce) and serves to address the current gap and shortage of skilled professionals in the relevant sector.

**15.1 JOB OPPORTUNITIES**

The D. Com pass-outs can either proceed for further studies or get employment as Accounts Clerk, Cashier, Accounts Assistant, Computer operator, Steno typist / Stenographer, Personal Assistant, Private Secretary, Sales Representative, etc.

**15.2 HIGHER EDUCATION OPPORTUNITIES**
