# QUAID-E-AZAM MUHAMMAD ALI JINNAH MESSAGE ON REORIENTATION OF EDUCATION

(An Extract from message to All Pakistan Educational Conference, Karachi, November 27, 1947)

## Vision of the Quaid-i-Azam Muhammad Ali Jinnah

*There is immediate and urgent need for training our people in the scientific and technical education in order to build up future economic life... But do not forget that we have to compete with the world, which is moving very fast in this direction. Also I must emphasize that greater attention should be paid to technical and vocational education.*

## From Special Assistant to Chief Minister Sindh/Chairperson, Sindh TEVTA

It is with profound pride and a forward-looking vision that I extend my sincere greetings to all prospective students and esteemed stakeholders of our institution. The initiation of the Technical and Vocational Education and Training (TVET) Program marks a significant milestone in our unwavering commitment to fostering innovation, academic excellence, and a brighter future for Pakistan.

In an era defined by rapid technological advancement and global industrial transformation, the role of technologists and skilled professionals has become increasingly vital. These individuals, with their unique integration of theoretical knowledge and practical skills, are at the forefront of driving economic development, industrial efficiency, and technological innovation. As Pakistan enters a new phase of progress, the need to embed advanced technology across all sectors has become not only essential but urgent.

In response to this imperative, the Sindh Technical Education and Vocational Training Authority (STEVTA) is strategically mobilizing its resources to establish institutions that meet comprehensive academic and technical standards. These institutions are designed to offer a conducive environment for intellectual and practical growth, equipping students with the skills and competencies necessary to compete effectively in a dynamic global market.

Our skill training and education programs, including Certificate Courses, Diplomas, and Bachelor's Degree Programs, are meticulously developed to align with international benchmarks while addressing the unique demands of Pakistan's industry. These programs are more than academic offerings as they represent transformative journeys aimed at empowering students to become innovators, leaders, and key contributors to national development.

I encourage all motivated and aspiring youth to embrace this opportunity to unlock their full potential and actively participate in shaping Pakistan's future. Together, we can pave the way for a nation recognized globally for its technological excellence, skilled workforce, and sustainable growth.

**JUNAID BULAND**

Special Assistant to Chief Minister Sindh /  
Chairperson STEVTA

**Ghulam Murtaza Shaikh**  
**Managing Director**

In today's socio-economic environment, Pakistan faces two major challenges: high unemployment and persistent poverty. At the heart of these issues lies a critical mismatch between the skills our youth possess and what the job market actually demands. This is where Technical and Vocational Education and Training (TVET) becomes not just an option, but a powerful solution for economic resilience and youth empowerment. Equipping our young generation with market-relevant technical skills is no longer a choice, it is a national necessity.

Pakistan is a labour-surplus country, yet we face a puzzling paradox: rising youth unemployment alongside a severe shortage of skilled professionals, especially in middle-management roles. The Sindh Technical Education and Vocational Training Authority (STEVTA) is actively closing this gap. We are adopting global best practices, introducing demand-driven curricula, strengthening institutional governance, and building strong partnerships with industry to ensure our graduates are job-ready.

Globally, TVET is recognized as a proven pathway out of poverty and a driver of inclusive growth. Unfortunately, in our society, it is still often seen as a second-choice option compared to traditional academic education. This perception must change. Elevating the status and recognition of TVET is essential if we are to build a workforce capable of meeting the demands of a rapidly evolving economy.

Let me assure you: STEVTA is firmly committed to making TVET a preferred and respected career choice. We are ensuring high-quality training, upgrading our institutes' infrastructure, promoting transparent governance, and actively engaging with youth to understand their aspirations. Through these efforts, we aim to create a future-ready, skilled workforce that will play a meaningful role in Pakistan's socio-economic development.

I invite you; students, parents, and community members to join us in reshaping the future of skills development in Sindh for a career of dignity, opportunity, and social impact.

## 1. INTRODUCTION

### 1.1 BRIEF HISTORY

Globalization generates new demands, structures, and systems requiring new skills and knowledge. In today's global economy driven by knowledge, the foremost wealth of a firm is its human capital. Therefore, the economic development of a country strongly depends on the level of human development, which in turn depends on the level of technically trained labour. Skilled labour results in improved productivity for Industry. A country with a wide-ranging Industrial base generates greater employment opportunities and reduces unemployment and poverty. For optimum performance by the industry, a productive workforce is needed to meet economic and social objectives.

Pakistan, with a labour surplus economy, on one side has rapidly increasing unemployed youth while on the other end, its public and private sector employers desperately look for a technically educated and trained workforce. The shortage of skilled labour is due to a mismatch between academic programs and market-oriented skills and training.

In response to the evolving demands of both domestic and international labour markets, and in alignment with the reorganization of Technical and Vocational Education and Training (TVET) institutions undertaken by other provinces, the Sindh Technical Education and Vocational Training Authority (STEVTA) was established under the STEVTA Ordinance, 2007 (Ordinance XVII of 2007). After the approval of the Sindh Cabinet in its meeting held on February 28, 2009, the administrative control of all TVET Institutions have been entrusted to STEVTA and subsequently in 2009, the Sindh Assembly passed the STEVTA Bill, 2009 on March 29, 2010, and enacted as The Sindh Technical Education & Vocational Training Authority Act, 2009 on April 20, 2010. To extend complete autonomy for reorganization and effective management, the policy-making task has been entrusted to the STEVTA Board of Governors (BoG).

### 1.2 PURPOSE

To manage and regulate Technical & Vocational Education and Training (TVET), in line with national and international job market requirements, for the greater employability of youth of Sindh province.

### 1.3 FUNCTIONS

**DIPLOMA IN  
COMMERCE  
(D.COM)  
AND BUSINESS  
ADMINISTRATION  
(DBA)**

## 15. SCOPE OF DIPLOMA IN COMMERCE (D.COM) PROGRAM

The economic development mechanism of a country is based upon three fields, i.e. commerce, industry and agriculture. The complete success in these fields can be achieved with the help of efficient, educated and properly trained Business/office managers. The field of business/office management and commerce requires the services of administrators, managers, accountants, secretaries, Junior Executives, and sales managers / Executives. There is a dearth of these qualified and trained professionals in our society / corporate sector. The Diploma in Commerce (D.Com) is equivalent to Intermediate (Commerce) and serves to address the current gap and shortage of skilled professionals in the relevant sector.

### 15.1 JOB OPPORTUNITIES

The D. Com pass-outs can either proceed for further studies or get employment as Accounts Clerk, Cashier, Accounts Assistant, Computer operator, Steno typist / Stenographer, Personal Assistant, Private Secretary, Sales Representative, etc.
